

Business

F3 & Associates, Inc.

Gene Feickert, Principle

F3 & Associates, Inc is an industry leader in construction survey services including land surveying, utility locating & concrete scanning, 3D laser scanning, BIM & VDC services. They have won several awards, such as the POB top 100 geospatial companies.

*"CrewBuilder has given me more knowledge about our business and made it more fun to run my division."
-Gene Feickert*

Challenges

Streamlining operational costs is challenging in every industry. Reducing costs and improving margins in the construction industry is more challenging because of difficulties in managing labor costs. Communication on daily activity is critical to successful project management. Challenges include:

- Knowing if you are making money
- Getting the right people on the right job
- Change order expediting
- Accurate personnel time tracking
- Slow project reporting on financials

Measurements for Success

- Improving margins on every job
- Improve Just in Time Management of projects (scheduling)
- Reducing project administration time
- Real time comparison of Plan to Actual on every project
- Number of mobilizations
- Daily Gross Billables and Costs
- Improving payroll accuracy

Why CrewBuilder

CrewBuilder is designed to connect and automate construction business processes, enabling a near seamless flow of vital project data used to adjust project management strategies and project health for any construction project on a daily basis.

Return On Investment

CrewBuilder Saves Time And Money On Every Job

- Project Managers save at least 1 hour per day
